

# Designing for users with dyslexia

## Do

- Use images and diagrams to support text
- Align text to the left and keep a **consistent** layout
- Consider producing materials in other formats (for example audio or video)
- Keep content short, **clear** and **simple**
- Let users change the **contrast** between background and text

## Don't

- Use large blocks of heavy text
- Underline words, use italics or write in capitals
- Force users to remember things from previous pages - give reminders and prompts
- Rely on accurate spelling - use autocorrect or provide suggestions
- Put too much information in one place
